

9th August 2017

Mace project office  
Worcester Avenue  
London  
N17 0TU

Dear Neighbours

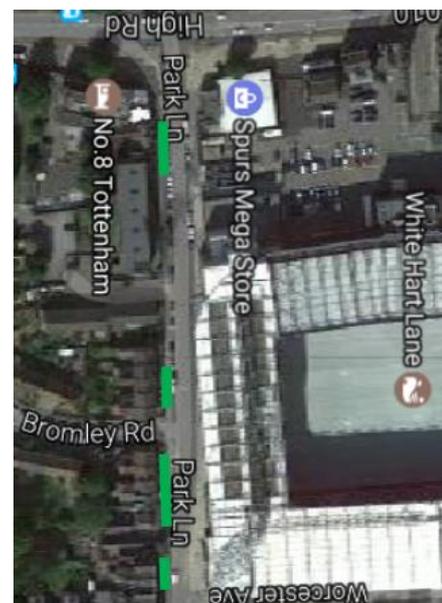

As recently communicated, to further limit noise, dust and light from the site, the project team has commenced installation of a screen of shipping containers along Park Lane. A study has shown that the noise levels will be reduced by at least 10 dB once the structure is in place. The structure will also provide a barrier to mitigate against the light spill from the site on to Park Lane, which has become an issue since the removal of White Hart Lane south stand.

Once the shipping containers are installed we anticipate Park Lane to be open to the public from 21<sup>st</sup> August. Thank you very much for your ongoing patience while the road has remained closed.

In the next two weeks the installation of the shipping containers will be carried out along the length of Park Lane up to Worcester Avenue. The installation will involve the use of mobile cranes lifting the containers in to place from Park Lane. They will be installed along the northern footpath and parking bays to ensure construction traffic is kept within the site, in efforts to reduce the impact on public road-users. The shipping containers are likely to be in place until project completion.

In consideration of our neighbours, the site team has made efforts to release some of the parking bays that were due to remain suspended until September 2018. In order for Park Lane to maintain two-way traffic whilst the shipping containers are in the northern parking bays, a small number of southern parking bays will remain suspended. The image to the right shows locations of the southern parking bays which will be made available to the public earlier than anticipated. Please note that during future phases of construction it may become necessary to suspend parking bays again.

On behalf of everyone on site, we thank our neighbours for your ongoing patience with the construction works at the new stadium development. If you have any concerns regarding the installation or any other matters relating to construction, please do not hesitate to call Mace's 24 hour number on 0845 602 5761, quoting: 32991.

Yours sincerely,

**Laura Hampson**
